

## LETTERS OF THE CZARINA TO THE CZAR IN WAR TIME

Empress Feels for Rasputin's Life Upon Learning of Plot Against Him.

Takes Stand Against Marriage of Grand Duchess Olga to Grand Duke Boris, Who Has a Past.

By ISAAC DON LEVINE.

ARTICLE XXXII.—CZARINA FEELS FOR RASPUTIN.

THE abortive plot engineered by Rasputin to assassinate the czar, and the czar's reaction to it, have been the subject of much discussion. It is well known that Rasputin was a man of great influence, and that he was the cause of much trouble to the czar and the empire. The czar, however, was a man of great strength of character, and he was not easily influenced by Rasputin. He was a man who was determined to do what was right, and he was not afraid to stand up to Rasputin. He was a man who was determined to do what was right, and he was not afraid to stand up to Rasputin.

DUST - DIDN'T I TELL  
YOU TO BRUSH  
IT OFF?!

YES MUM - BUT I FIGGERED  
IT NEEDED SOMETHIN'  
ON IT!

THE  
END

## HOROSCOPE

SUNDAY, MAY 9, 1920.

THIS is not a fortunate day, according to astrology. Mars, Venus and Mercury are all adverse.

Rumors of wars and troubles that come close to American interests again are forestalled by the stars.

Army officers will command attention and there will be much agitation concerning military matters. It is prophesied.

Women should be especially cautious during this day, which seems to indicate that some sensational incident connected with their public activities will be much exploited in the newspapers.

All the signs seem to preface noisily to matters pertaining to women in public affairs. Scandals and gossip again are forestalled.

This is held to be an especially favorable day for women who write or speak concerning national issues, since they will be likely to arouse jealousy and new malice.

Religious controversies will loom large at this time, if the stars are read aright.

With the ingress of the summer quarter next month, Mars rising in Libra is read as indicating a disorderly condition of public thought that will have a serious effect on the whole country.

Foreign trade should benefit greatly from this date, but misunderstandings with foreign powers are prosaged.

Diplomacy is subject to a way that makes for anxiety and trouble. Warning is given that it will be well to prepare for a period when financial caution will count for much. There is a sinister sign for banks and banking early in the autumn.

Fire and losses of life threaten eastern cities late in the summer. Persons whose birthdate it is may have a troublesome year, but they may protect themselves by diversifying in business. Changes will not be lucky.

Children born on this day may be restless and discontented, but talented and ambitious. They should be carefully trained in practical lines.—Copyright, 1920, by the McClure Newspaper Syndicate.

MONDAY, MAY 10, 1920.

ASTROLOGERS read this as rather an uncertain day. Although Venus rules strongly for good, Neptune, Jupiter and Saturn are all in malefic aspect.

This should be an exceptionally lucky day under which to present new plays. It is also most promising for actors and actresses, making for enthusiasm and appreciation on the part of audiences.

It is an auspicious wedding day, although it forecasts more of love and romance than money and fame.

Women should not lose a moment of this day in which the planetary government seems to be most fortunate for all their activities.

Journeys begun while this configuration prevails may not be fortunate. It is well to delay them, especially if a commercial aim prompts them.

Evil reports that affect business or commerce may be circulated, but their harmful possibilities will be overcome by the spread of hopeful suggestions.

Again warning is given that there may be a slump in stocks and a depreciation in securities, but the results will not be serious.

They who look far ahead foretell for the coming winter steady improvement in business conditions following something like a serious flurry in Wall street.

Forest fires are likely to cause great damage in the fall, after a summer of extraordinary heat.

Halfways have the augury of a period of great prosperity. Heavy travel will mark the summer months.

Mars culminating in Russia seems to foreshadow continued troubles and even an outbreak that causes grave results.

Persons whose birthdate it is should not be speculative or borrow trouble. Girls will receive much attention during the coming year.

Children born on this day are likely to be generous to excess and great favorites with persons of all ages. Girls probably will have romantic and eventful careers.—Copyright, 1920, by the McClure Newspaper Syndicate.

AMENDMENT PROVIDES EXTRA GUARDS FOR BORDER SERVICE

Washington, D. C., May 8.—Extra border guards, as requested by P. W. Berkshire, supervisor of immigration, will become available under an amendment to the sundry civil appropriation bill obtained by congressman Garner. He proposed that a part of the ten million dollar appropriation provided for the service be made available for the employment of extra guards on the Mexican border and the amendment carried. It is scarcely possible that it will be interfered with in the senate.

## Secrets Of The Movies Revealed

Q. How are actors made to walk head down on ceilings, such as Fairbanks did in a recent picture?

A. A set is built showing a room, open at one side and revolving on an axle like a squirrel cage. As the actor walks over to the side wall, he puts his foot on it for the first step, the camera, which is equipped to revolve also, turns, and so on as he walks up one wall, across the ceiling and down the other wall. To the turned camera, the actor always appears walking on the floor head up, but as the picture registers vertically on the film, the actor appears walking with his head either down or out horizontally.

Q. What will cause the dancings Doug Fairbanks to give up a motor trip, even after he has started on it?

A. A rabbit crossing the road in front of his car to the left will make Doug abandon the trip or take another road. It is his only superstition.

Q. What are "sets" in the movies?

A. Motion picture "sets" are interior or exterior scenery or setting built to appear in a film.

Q. Where was Mabel Normand born?

A. Boston, Mass.

Q. To whom is Jack Pratt married?

A. Betty Brice.

Q. Who has the reputation as being the most expert portrayor of dogs in the movies?

A. Charlie West.

Q. Who is said to be the humblest girl in the movies and even allows her presence to any life?

A. Miss Gale Henry, screen comedienne.

Q. If you would like to know how directors can make fairies dance on top of birthday cakes, read this department in our next issue.
